Description

I have been working in the IT market for 4 years, from the first year of my student life to the completion of my bachelor's degree, And now I have many abilities in discussing and analyzing purchases in the field of IT and computers.

Also, I have completed a 7-month internship in the information technology unit of Khalkhal Education Department.

(I have also received written consent from previous collaborations)

The key to my success is continuous study, pursuit and motivation.

Thanks Seyed Ali Mortazavi
